

The PICAIS welcomes:

Prof. Dr. Daniel J. Henderson

Professor of Economics and the J. Weldon and Delores Cole Faculty Fellow in the Department of Economics, Finance and Legal Studies in the Culverhouse College of Business at the University of Alabama (USA)

Duration of stay: 31.05.2023 – 31.07.2023

Project Proposal:

Dynamic nonparametric multidimensional panel data models with application to migration flows across Europe

Host at the University of Passau:

Prof. Dr. Harry Haupt (Chair of Statistics and Data Analytics)

Dr. Joachim Schnurbus (Computational Statistics and Mathematics Teaching Unit)

Prof. Henderson's **research focus** is in Nonparametric Econometrics and Statistics, Panel Data Econometrics, Applied Microeconometrics, Economics of Education. However, his research encompasses various fields, including child health determinants, economic growth and development, environmental economics and international trade.

His extensive publication record includes prestigious journals. Notably, his work has been cited not only within economics but also across a diverse range of disciplines. He presented in numerous conferences, seminars, and workshops. In addition to his research endeavors, Prof. Henderson actively engages in academic supervision and teaching.

Prof. Henderson has been appointed as a European Science Foundation Expert, serving in the College of Expert Reviewers for Science Connect. Furthermore, he holds memberships at various universities in Asia and Europe, contributing to international research collaborations. Since 2008, he has been a research fellow at IZA in Bonn.
